Last Year's Report

# Generating Reports

- Throughout the year, faculty members can add research and creative activities.
- Reports are stored as XML files and are then presented as HTML or PDF.
- At the generation step, the system “sweeps” all of these information sources using the start and end date of the reporting year to create an initial XML file.
- Faculty member can roll forward report from previous year.
- Faculty member can add comments, omit certain items, etc.
- Once report is submitted as final, no further changes are allowed.
- Finalized reports are archived in digital imaging system and linked to employee in SAP-HR\*.

# Results

## Pros

- No more paper shuffling
- Faculty member does not have to tell what the system already knows
- Improved access to those in reporting line
- Nice archive of reports over time
- Can now report on research and creative activities, i.e., How many books have been produced by the History Department?

## Cons

- Still have some user interface issues to work through
  - Confusion surrounding “refreshing” system data
  - Some faculty members still struggle with the new process
  - Year 2 was much better than year 1, but still need one more iteration
- May be overkill to use this approach for certain kinds of data

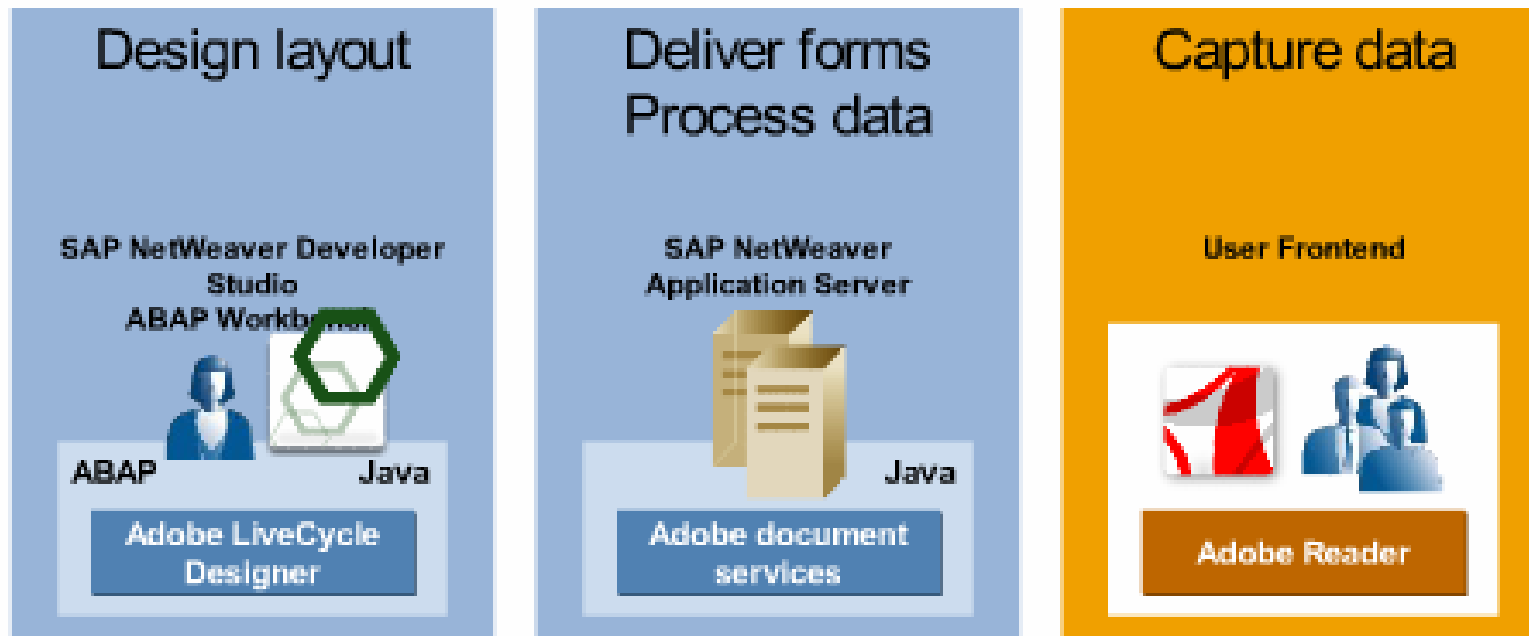

# Adobe Interactive Forms

What is Possible?

# SAP Interactive Forms by Adobe

- Integrate interactive PDF documents into business processes
- Incorporate interactive forms into workflow
- Generate forms that contain data extracted from SAP systems
- Use dynamic or static forms
- Complete forms online or offline
- Submit data from the form back to SAP systems
- Allow users to print forms

## How Interactive Forms Work

## Forms Scenarios

### Online Interactive Form Scenario

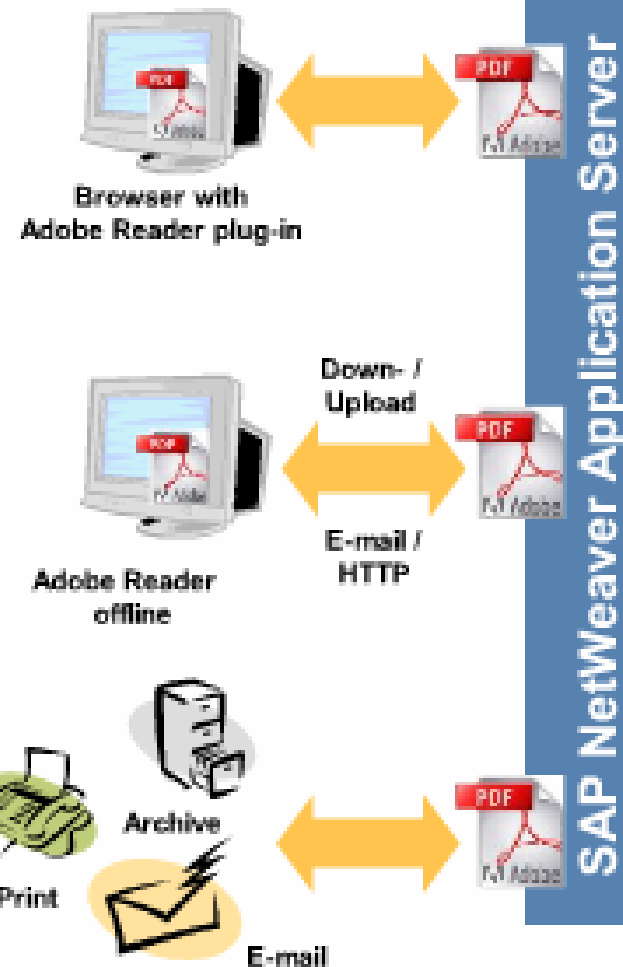

- SAP system access needed
- Full integration into Web Dynpro for Java and ABAP frameworks
- Context-sensitive value help, online checks

### Offline Interactive Form Scenario

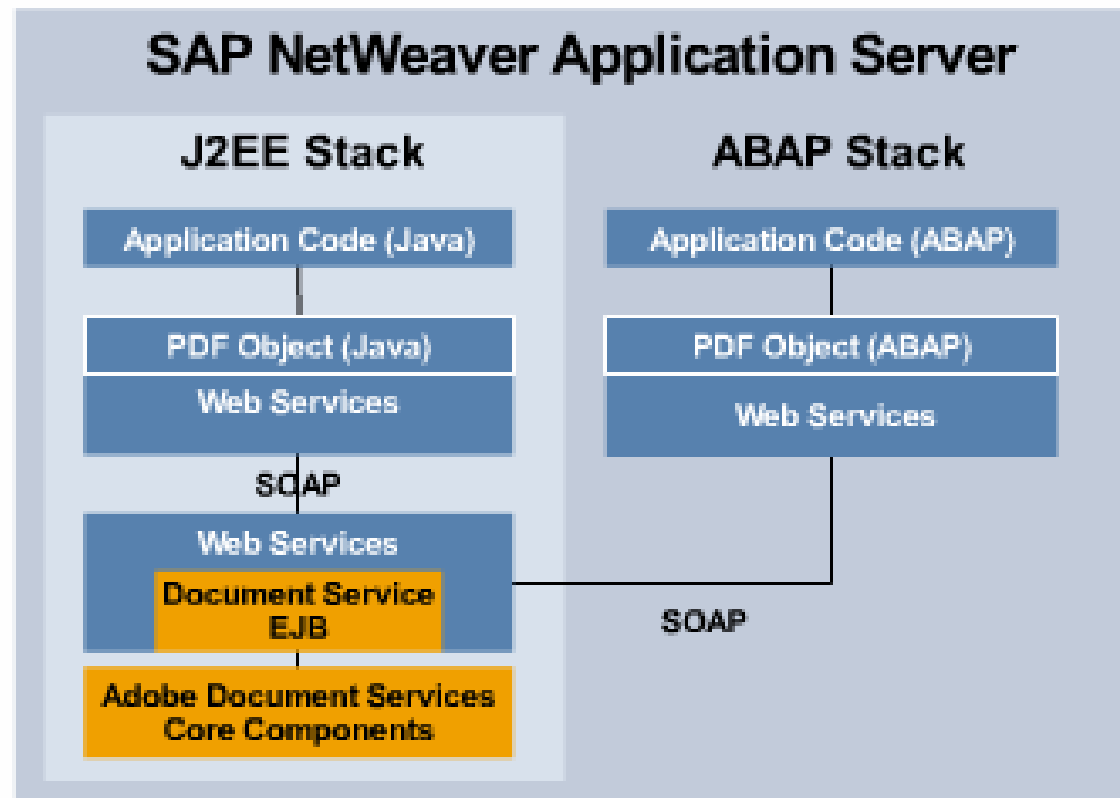

- No SAP system access needed
- Static value help, static checking, simple arithmetic calculations
- Self-contained PDF (XML data+layout)

### Form Printing Scenario

- 'Classic' form processing, not interactive
- Output documents are printed, e-mailed, archived or faxed

## Run-Time Architecture

# ABAP or JAVA Development Environment

- ABAP
  - Transaction SFP
    - Form Interface
    - Form Design using Adobe Lifecycle Designer within SAP GUI 7.10
- JAVA
  - Netweaver Development Studio including Adobe Lifecycle Designer

# Adobe Interactive Forms Licensing Issues

- Generation of print forms (high volume printing) is included in SAP license
- You need a separate license for Interactive Forms to:
  - Create custom-developed interactive forms
  - Modify an SAP-delivered interactive form template

# Online Faculty Evaluations

With SAP Interactive Forms by Adobe

# Online Evaluations ~

## Why?

- Streamline the process
- Minimize or eliminate the need to submit paper through administrative channels
- Provide long-term digital archiving of evaluation results
- Prepare the University for demonstrating to SACS that we have a systematic process for evaluating faculty

# Project Timeline

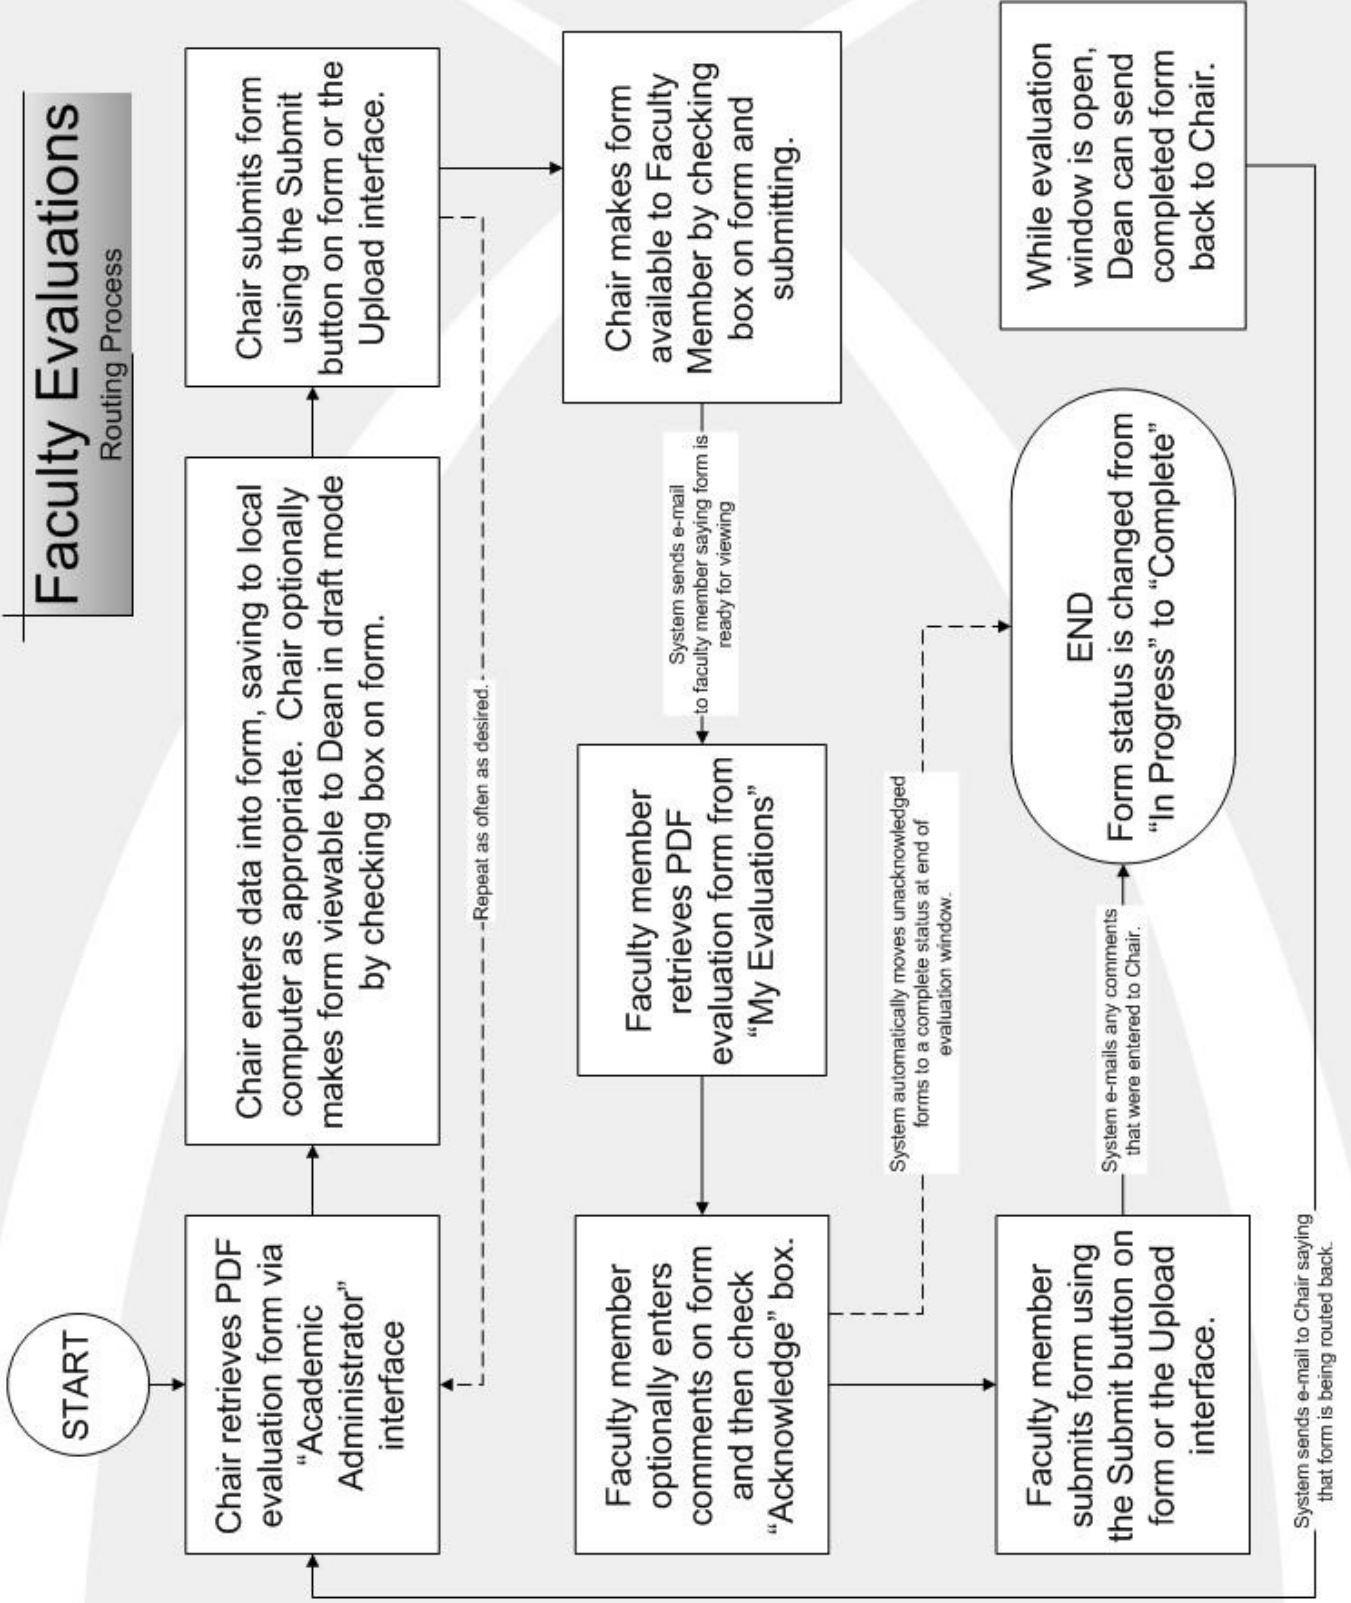

- October-December 2006
  - Set up Adobe forms environment (Basis Team)
- January - February 2007
  - Prototype (Hale)
- February – March 2007
  - Development (Web Team)
- March 31
  - Go Live
- March 31 – June 1, 2007
  - Evaluation Window

# Technical Details

- Form designed using SAP SFP transaction
- On submit, XML only sent to SAP
- Customer functions to get and post PDF
- ABAP data structure maps to form XML
- XML stored in BDS
- Customer table to store form meta-data

# Other Tips for Chairs

- Can cut and paste into the PDF evaluation form from standard word processors.
- Note that page 4 contains a large open box for any additional comments. Typically, this will be left empty.
- Sharing the Evaluation Task
  - Suppose that someone else in your department is helping you conduct evaluations. In this case, you can send the PDF form to her, let her fill it out, and then she can send it back to you to submit.

# Summary

**Summary:** For the purpose of Post-Tenure Review, this shall be considered a

- Satisfactory Review
- An Unsatisfactory Review

The Summary field occurs on page 2 and will only appear for tenured faculty members. When the form is finalized, this field will be stored permanently in SAP (HR) as part of the employee record.

# Make Viewable To

## **Make viewable to:**

- Dean as draft version
- Faculty Member

The “Make viewable to” field occurs on page 2 and is **very important**. The first option will allow your Dean to view the form in draft mode from the Academic Administrator interface. The second option will send the form to the faculty member. The faculty member will receive an e-mail message saying that he/she may view the evaluation from the “My Evaluations” tab. Neither setting will take effect until you submit the form.

# The Submit Button

*Note: You must be connected to the Internet before selecting Submit. The Submit button only works for Windows users. If you are a Mac user or having difficulty submitting, please upload your form using this Web address:

Submit

The Submit button occurs on page 2 for Chairs. For Windows users, this is the easiest way to submit the form. Note that although you don't have to be connected to the Internet when you enter data into the form, you do have to be connected to submit the form. A stand-alone upload form is available for Mac users and for anyone else who is having trouble getting the Submit button to work.

The annual review prepared by your immediate supervisor is available for you to view online and acknowledge. Do so by going to Online Services ( see [https://secure.olemiss.edu/services/faculty\\_index.html](https://secure.olemiss.edu/services/faculty_index.html) ), selecting the Faculty Activity tab, authenticating, and then clicking the box on the right entitled My Evaluations.

If you are a pre-tenured tenure track faculty member, University guidelines prescribe that you should also have a face-to-face meeting with the Department Chair to discuss your annual evaluation.

All faculty should acknowledge reading their evaluation by clicking a box on page 3 of the online form. Also, you have the opportunity to enter comments on the online form about your evaluation.

This paragraph only appears for pre-tenured tenure-track faculty members.
