

CENTER FOR JAPANESE STUDIES ●

Since 1974, over 10,000 students from around the world have chosen Nanzan University's Center for Japanese Studies as their study abroad destination, to foster their Japanese language skills and deepen their knowledge and understanding of Japanese culture.

Students can choose to enroll in either our internationally renowned Intensive Japanese Program or our fascinating new content-focused Modern Japan Program. Our Summer Program in June and July each year is also very popular.

With small class sizes and highly experienced instructors working hard to provide individualized and personal attention, students will be amazed at how much they can learn – and how interesting it will be!

NANZAN UNIVERSITY

International Student Admissions Information

DIGEST

ONE OF THE TOP PRIVATE UNIVERSITIES IN CENTRAL JAPAN

From modest beginnings as a College of Foreign Languages in 1946, Nanzan took a small step to become a single Faculty of Arts and Letters in 1949 and has since grown into a fully-fledged university with a worldwide reputation for academic excellence. Today, Nanzan is among Japan's leading Catholic universities, with approximately 10,000 students including about 450 international students. With 8 undergraduate faculties and 6 graduate schools as well as the Center for Japanese Studies, we continue to develop internationalization that is in synch with our educational motto "For Human Dignity." By learning together with people from other cultures and languages, our students get a more complete picture of what it means to be a human being. Each of us becomes richer by learning first hand, through actual experience and integration, about the great diversity that constitutes our common human dignity.

Why not come to Nanzan? You will be able to make your own, unique contribution towards building a global society that has human dignity as its central focus.

STUDENT MESSAGE

My dream is to get a job in a Japanese manufacturer and provide the kind of top-quality service that is the norm in Japan to the world. That is why I chose to study in Japan. My classmates and teachers are all really kind and supportive. There are places such as the Stella and World Plaza where we can interact with local and international students, so there is no chance of finding oneself alone. I think that I have grown greatly as a person through my experience of studying in Japan.

STUDENT MESSAGE

I am researching the effects of financial policy, mainly from the angle of finance. In addition to my own research, I have also been able to take a range of other courses, giving myself a more global perspective in the process. There are many kind teachers who provide excellent support to students, not just in terms of research-related guidance, but also regarding the various things that can come up in student life. The University offers scholarships and fees reduction, and there are lots of opportunities to mix with foreign students on campus. Student life at Nanzan is fun!
