## **Why UNIUD**

UNIUD is a young dynamic university whose mission, since its foundation in 1978, has been to promote higher education by imparting knowledge and generating new ideas at the cutting edge of society. The key of its success at both the national and international level is the quality and enthusiasm of all of its components.

## **We value merit**

Every year the best graduates of the University are awarded grants that include tuition reductions for enrollment in master degree courses and facilitations in job placement programs. Info: [cort@uniud.it](mailto:cort@uniud.it)

## **We are mindful**

UNIUD offers various services to ensure the well-being of its students, so as to assist those who have problems adapting to university life or those who encounter difficulties during their studies. The services comprise free laboratories for anxiety management, study methods, effective communication skills, mindfulness, meditation, problem solving and decision making (“Agiatamento Project”).

## **We take care of you**

The attention we give to students is a real added value: every course has a tutor who can help and take care of students.

## **We think about you**

Thanks to the quality of our courses and their connection with firms and territory needs, UNIUD graduates could find easily a job (77,5% of the graduates a year after the degree). Moreover, our Career Center Service organizes job fairs and advises graduates on job opportunities.

# LEARNING AT THE HEART OF EUROPE

---

Udine University, situated in Udine, a town in the region of Friuli Venezia Giulia, north-eastern Italy, is in the very heart of Europe and is a meeting place of different worlds and cultures. UNIUD and Udine have a relaxed student-friendly atmosphere and are within easy reach of many places of interest in Italy, Europe and beyond.

A few kilometers away there is Aquileia, an old Roman town founded in 181 BC, with rich archeological finds, where students and professors from the University often go on digs. Cividale del Friuli is one of the most important Longobard sites in the world, and San Daniele del Friuli is well-known for its quality ham.

Palmanova is a star-shaped jewel, and there are numerous medieval castles in the Friuli hills.

## **LIVING SPACES**

At the heart of your university experience you will find great accommodation, facilities, student support and social life. The campuses are all spacious, with plenty of gardens and green areas.

The libraries are well-equipped, so you can sit and study in peace. There is accommodation at student halls of residence, or if you prefer you can rent a flat in town. You can socialize with fellow students at the coffee machines or in the canteens.

## **LABORATORIES, TEACHERS AND E-LEARNING COURSES**

At UNIUD you will find a staff of dedicated, experienced and inspirational teachers who will challenge you to achieve your best. You will work with enthusiastic researchers and lecturers in lectures, seminars and tutorials, and you will also find time for independent study.

All students are allocated a personal tutor, who will help them solve any problems they meet. There is a vast variety of laboratories available for you: state-of-the-art science laboratories, language laboratories and IT rooms.

All courses could be attended in class-room or through e-learning modality, according to student's needs. This fosters a cross-multimedial learning and improves the achievement of the didactic goals.

# PROSPECTIVE AND EXCHANGE STUDENTS

—

## **GENERAL INFORMATION**

Foreign non-EU students must submit their application for pre-enrolment to the Italian Embassy or Consulate in their Country of residence. On completion of the pre-enrolment procedure, a visa for study purposes will be issued in order to enter Italy.

Access requirements to Bachelor's and Master's Degree Courses are compulsory for all students with a foreign qualification, regardless their nationality, whether it is released by an EU country, or non-EU.

## **ADMISSION TO A BACHELOR'S OR MASTER'S DEGREE COURSE OR TO A PHD COURSE**

1. Choose the Bachelor's or Master's Degree Course or PhD course you are interested in
2. Obtain a foreign qualification recognition procedure (Statement of comparability) in order to have access to the First Cycle Courses (for Bachelors courses) or the Second Cycle Courses (for Masters courses) or the Third Cycle Courses (for PhD courses).

After obtaining the Statement of comparability:

- follow the admission procedures provided for the bachelor degree course you selected
- or wait for the evaluation of the Admission Teaching Committee and follow the required admission procedures of the Master Degree Course you chose, if the evaluation is positive, or
- follow the online admission procedures on the "Research Doctorate" web page to enrol to a PhD course.

## **INFORMATION**

Information on admission/enrolment rules and regulations, deadlines, tests, etc. is listed in the International Area of UNIUD website, which is updated every year in June.

You could also send an email to [studenti@uniud.it](mailto:studenti@uniud.it) or watch the Prospective international students - enrolment instructions video tutorial on Youtube to get more information.

## **ITALIAN LANGUAGE REQUIREMENTS**

All international students must have the Common European Framework's B1 or B2 level of proficiency, according to the course chosen. Italian language courses at Elementary, Intermediate and Advanced levels are offered during the semester. Intensive courses are held throughout the academic year.

## **ACADEMIC CALENDAR**

## **LIVING UDINE AND ITS EVENTS**

Students who come and study in Udine always have a great experience and go away with a wealth of happy memories: they form life-long friendships and many stay on!

Udine is a people-friendly city: it offers all the attractions of a bigger center – pubs, cafes, restaurants, wine bars, coffee shops, discos, theaters, cinemas, gyms and so on – but it retains its human dimension – it is safe and compact, so you can walk or cycle everywhere and at all times of the day and night.

Moreover, music-lovers can supplement their university training at the local conservatory ([www.conservatorio.udine.it](http://www.conservatorio.udine.it)).

The city has a very rich and varied calendar of cultural events: from music concerts (rock, pop, rap, jazz, classical) to the internationally acclaimed Far East Cinema Festival in April. And don't miss the food and wine extravaganza that is Friuli DOC (September). Shops, art galleries, museums: Udine has it all!

In order to spread the love for knowledge, during the first weekend of July the University organizes an annual Knowledge Festival. The event is aimed at promoting an exchange of scientific research, educational trends and new knowledges through meetings with internationally acclaimed philosophers, writers, journalists and scientists in the town squares and through didactic laboratories, technological installations and debates.

## **SURROUNDINGS**

There is just so much to see and do in and around Udine! Cultural sites? Cividale is hard to beat, with its Longobard treasures, but there's also Villa Manin, near Codroipo, where Napoleon stayed before signing the Treaty of Campoformido (you can see his bed!), Palmanova, the starshaped fortified town, and the Roman remains at Aquileia. There's the beautiful unspoilt countryside of the hills and valleys, where you can eat local food and drink local wine for next to nothing at the "frasche" or village "sagre". If you want to venture further afield, (Trieste is only 70 kilometers away and Venice 140, and if you want to visit other Countries, Austria, Slovenia and Croatia are nearby and easily reached by public transport).

## **SPORTS IN FRIULI**

If you like sport, come to Friuli! We have a vast range of sporting facilities to offer. Situated half-way between the mountains and the sea, the choice of sport is yours: in winter you can head north to the mountains, for skiing (all types, from Alpine to cross-country), snowboarding, sledding, skating and tobogganing. Or in summer you can hike, climb, swim in the Alpine lakes, cycle or mountain bike.

If you prefer the sea, it's just a short ride (or cycle) away. You can go to Grado or Lignano, where you can swim, sail, kite surf, wind surf, canoe, do water aerobics or snorkeling (the Trieste coast is best for this), bodyboarding, jet ski, beach volleyball or simply laze on the beach, of course.

And if you're a football fan, you have to go to tadio Friuli to watch Udinese!
