

Waste designation	AVV Nr.
Old varnishes/old paints, not cured	08 01 11
Waste oil (engines and gearbox oils)	13 02 05
Pharmaceuticals	18 01 09
Heavy metal waste, liquid without Hg	16 05 07
Operating fluids, chemically contaminated; Operating fluids, containing solvents	15 02 02
Lead accumulators, lead batteries	16 06 01
Bleach/fixing bath	09 01 04
Drilling / grinding emulsion	12 01 09
Disinfectant	07 06 04
Compressed gas cylinders, spray cans	16 05 04
Developer baths	09 01 01
Staining solution, ethidium bromide-free	07 01 04
Staining solution, containing ethidium bromide	14 06 02
Grease and wax waste	12 01 12
Fixing solutions/fixing baths	09 01 04
Formaldehyde solution	07 01 04
Glass/ceramic waste with harmful residues	17 02 04
Infectious waste (laboratory waste)	18 01 03
Laboratory chemicals, inorganic	16 05 07
Laboratory chemicals, organic	16 05 08
Laboratory chemicals, containing mercury	16 05 07
Empty packaging (plastic/metal) with harmful residues	15 01 10
Glues and adhesives	08 04 09
Fluorescent tubes, rod-shaped/ special design	20 01 21
Solvent, halogen-free (L. o. H.)	07 01 04
Solvents, containing halogens (L. m. H.)	14 06 02
Sodium hydroxide solution	06 02 05
Operating materials containing oil (e.g. oil filters, cleaning rags, etc.)	15 02 02
Oil-water mixture	16 07 08
Paraffin oil, contaminated	07 01 04
Equipment containing PCBs	15 02 02
Plant protection product	02 01 08
Waste containing mercury	06 04 04
Mercury, metallic	06 04 04
Sand trap residues (only rarely occurring waste from operating technology)	13 05 01
Sludges from oil separators (only rarely occurring waste from operating technology)	13 05 02
Sulphuric acid	06 01 06
Dry cell batteries	20 01 33
Cytostatic waste	18 01 08
Radioactive material	*
Risk material (animal carcass)	*

* Are not subject to waste legislation and therefore do not have an AVV number.

Special waste disposal is only carried out as required and must be registered with the Sustainability and Energy Unit (Sonderentsorgung@FU-Berlin.de) using the Special Waste Disposal form.
