

Advertisement of 2 Scholarships for Doctoral Studies (2023-2027) Doctoral Program: Ancient Philosophy and History of Ancient Science

The Graduate School Scholarship Program (GSSP) of the German Academic Exchange Service (DAAD) is offering two (2) doctoral scholarships to carry out a doctorate within the framework of “Ancient Philosophy and History of Ancient Science” program.

We welcome applications from highly qualified graduates from the fields of

- Ancient Philosophy
- Classics
- History of Ancient Science.

Candidates must hold an outstanding Master's degree (MA, MSt, or MSc), in one of the aforementioned subjects or be very close to completion.

Objectives

For the Ancient Philosophy pathway of the program, we particularly welcome dissertation proposals, which involve both philosophy and one or more special sciences (including mathematics, medicine, and other disciplines that we might not today consider special sciences, such as grammar or divination).

For the History of Ancient Science pathway of the program, we also (but not exclusively) welcome proposals that consider philological, social and cultural aspects of the ancient sciences, both in the Greco-Roman and in the ancient Near Eastern, Early Christian and Islamic worlds. Candidates are expected to have sufficient command of the relevant ancient languages for their dissertation project. Since the language of instruction is predominantly English, your active language skills should be good enough to participate in discussions and to be able to write academic texts and papers.

Doctoral students are expected to participate in Digital Humanities training offered as part of BerGSAS.

Who can apply?

The call is open only to applicants who are not German citizens. Applicants must not have been resident in Germany for more than the last 12 months. Applicants must not have completed a PhD previously. Their last final examination (M.A.) must have been completed no more than 6 years, 5 months ago.

Duration and funding

The scholarships are available from October 2023 (Wintersemester 2023/24) for four years, subject to a satisfactory annual progress review.

In accordance with DAAD guidelines, doctoral scholarship holders receive a stipend of 1,200 Euros a month, a travel allowance, a combined health, accident and liability insurance policy, allowances for study and research (rent and family allowances, where applicable); financial support for a pre-sessional German language course. Plus, material resources and supervision allowance of 1,000 Euros per year, which is paid to the BerGSAS.
