Water Refill

"I wish I had better ways to fill up my water bottle."

"We are pleased to offer a good solution for filling drinking bottles with the new 'water dispenser tap'. The first tap is already installed, all other taps will be replaced accordingly in case of defect."

Writing Consultation

"The most difficult part of my thesis right now is to get into the getting into the flow of writing."

"We are already diligently planning a new offer that will support you in exactly this in the future. An in-library consultation on everything to do with academic writing and papers. We look forward to telling you more about it soon."

Locker Usage

"The bag check is really unnecessary and annoying."

"We are also very happy that we can now offer you our lockers again as usual. You are welcome to bring in valuables and everything for your library visit in our baskets. Closed coffee mugs are also allowed. We wish you a pleasant stay!"
